PROFESSIONAL SUMMARY

Web Developer with internship experience building responsive web applications using React, PHP, and MySQL. Passionate about clean and scalable code, and continuous learning. Seeking to contribute to frontend/backend development in a dynamic team environment.

EXPERIENCE

THE KING PHOENIX | Web Developer Intern

Sep 2024 – Feb 2025 | Trichy

- Engineered responsive, dynamic websites for e-commerce and business clients, focusing on functionality while delivering visually engaging user experiences.
- Hands-on experience with React.js, HTML, CSS, Bootstrap, JavaScript, PHP with MVC Pattern, MySQL, and GitHub.
- Improved business efficiency by 30% through responsive and user-friendly design implementations, enhancing overall user experience.

PROJECTS

Beeter Magic | Ecomm Website | Live link

- Collaborated in a development team to create an e-commerce platform for washing liquid products during my intern period.
- I worked on frontend development using HTML, CSS, Bootstrap, and JavaScript to build responsive, user-friendly interfaces.
- Contributed to backend development with PHP and MySQL gaining comprehensive understanding of server-side operations.

Portfolio | Livelihood

- Designed and developed a fully responsive personal portfolio to showcase skills, projects, and experience.
- Built with React and styled using Tailwind CSS for modularity, scalability, and performance.
- Integrated Framer Motion for smooth animations and interactive UI transitions.
- Used EmailJS to implement a working contact form without backend infrastructure.

Lighten | Static website | Livelihood

- Expanded a professional multi-page website for an electronics shop, showcasing their business, products, and services, with reference.
- HTML, CSS, and Bootstrap for responsiveness and accessibility.
