PROFESSIONAL SUMMARY

Enthusiastic Web Developer with internship experience in designing responsive websites. Strong front-end and back-end technologies skills. Looking for a position where I can acquire new skills/enhance my existing skills related to the job and add value to the growth of your company.

EXPERIENCE

THE KING PHOENIX | Web Developer Intern

Sep 2024 – Feb 2025 | Trichy

- Engineered responsive, dynamic websites for e-commerce and business clients, focusing on functionality while delivering visually engaging user experiences.
- Hands-on experience with React.js, HTML, CSS, Bootstrap, JavaScript, PHP with MVC Pattern, MySQL, and GitHub.
- Improved business efficiency by 30% through responsive and user-friendly design implementations, enhancing overall user experience.

PROJECTS

BETTER MAGIC | Ecomm Website | Live link

- Collaborated in a development team to create an e-commerce platform for washing liquid products during my intern period.
- I worked on frontend development using HTML, CSS, Bootstrap, and JavaScript to build responsive, user-friendly interfaces.
- Contributed to backend development with PHP and MySQL gaining comprehensive understanding of server-side operations.

FEANE | Static website | Live link

- Created a professional static website for a restaurant showcasing their business, food offerings, and menu.
- Implemented clean design using HTML, CSS and Bootstrap to enhance customer experience with responsive to all devices.

LIGHTEN | Static website | Livelihood

- Expanded a professional multi-page website for an electronics shop, showcasing their business, products, and services, with reference to ThemeWagon.
- Created a fully interactive and responsive site using HTML, CSS, and Bootstrap, ensuring seamless user experience and responsive across all devices.
